INVESTOR IN PEOPLE

BRAID ON BRAID

Recommended uses

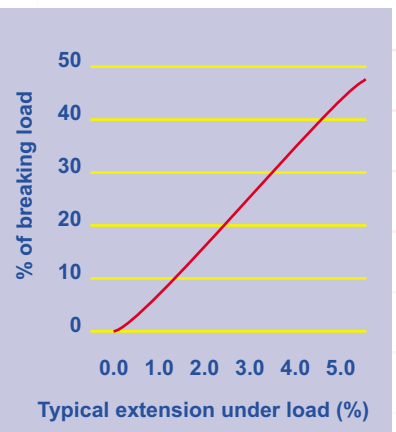

Cruising Halyards
Uphauls
Control Lines
Sheets

BRAID ON BRAID has established a highly creditable reputation for performance, endurance and durability with the leaders of the yachting industry. The rope is easy to use and handle for multiple cruising yacht applications.

The splicing quality of the ropes, a key issue for the use of Braid on Braid for halyards, is improved, and instructions can be found on our website.

Braid on Braid is available in white with colour flecks and strong solid colours with contrasting marks.

TECHNICAL FEATURES

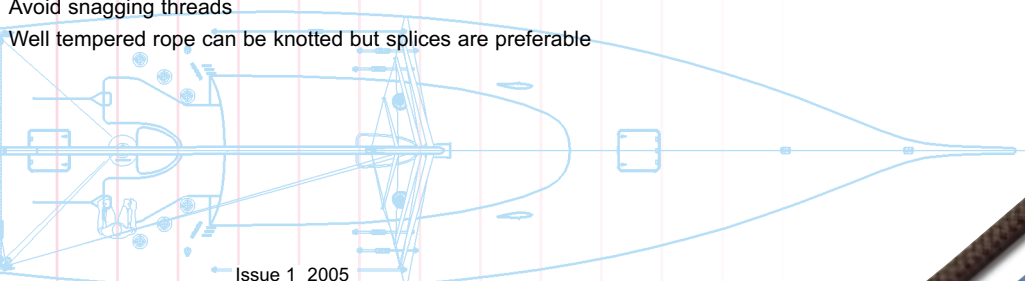

- Good strength
- Low stretch
- Flexible and easy to handle
- Good performance in running gear
- Easy to splice

Diameter mm	Breaking Load Kg
